Green & Green India and International

Green and green revolution around the world →

we can create a greener and cleaner world for future generations. Join us in our mission to make a lasting impact on the planet.

Introduction

Green & Green India and International is a non-profit organization committed to environmental conservation. Our mission focuses on planting trees, reducing pollution, and promoting sustainable living practices worldwide. We collaborate with communities, schools, and governments to empower collective action for lasting environmental change.

Green and Green India and International is a beacon of environmental stewardship, committed to nurturing a sustainable future for generations to come. With a focus on community empowerment and conservation, we lead initiatives that safeguard precious ecosystems, promote renewable energy solutions, and inspire eco-conscious living. Through education, advocacy, and action, we strive to cultivate a greener, healthier India where harmony between humanity and nature thrives

The Majesty of Nature

Green and Green India and International is a non-profit organization established in 2005 with the vision of fostering a harmonious relationship between human activity and the natural world. Over the years, we have grown to become a prominent advocate for environmental protection and sustainable development in India and abroad. Through collaborative efforts with local communities, government agencies, and other stakeholders, we strive to address pressing environmental issues while promoting a more eco-conscious way of life.

Green and Green India and International is dedicated to promoting environmental conservation, sustainability, and community empowerment across the Indian subcontinent. Our mission is to create a greener and healthier environment for current and future generations through a combination of education, advocacy, and action.

Green & Green India and International

GREENING INDIA SUSTAINABLY.

Transforming: Committed to preserving India and abroad's natural beauty and fostering a greener, more sustainable future for generations to come.

Community well-being: Empowering communities, protecting biodiversity, and combating climate change for a greener, more sustainable India and abroad.

Working Partner with USAID

Green & Green India and International is proud to partner with the United States Agency for International Development (USAID) in our shared mission to promote sustainable development and environmental conservation. This collaboration leverages the strengths and expertise of both organizations to address critical environmental challenges and foster resilience in communities worldwide.

The partnership with USAID enables Green & Green India and International to scale up its initiatives in afforestation, pollution reduction, and sustainable practices. By combining our on-ground experience and community engagement with USAID's resources and global reach, we can implement impactful projects that contribute to environmental sustainability and climate resilience.

Impact and Future Goals:

Through our partnership with USAID, Green & Green India and International aims to expand its reach and impact, addressing environmental challenges on a larger scale. We are committed to achieving significant milestones in tree planting, pollution reduction, and community empowerment. Our joint efforts are focused on creating a sustainable and resilient future, with a particular emphasis on inclusivity and collaboration.

This partnership represents a shared commitment to making a lasting difference in the fight against climate change and environmental degradation. By working together, Green & Green India and International and USAID are dedicated to building a greener, cleaner, and more sustainable world for future generations.

USAID
FROM THE AMERICAN PEOPLE

Vision and Mission

Our vision is a world with abundant greenery and clean air, where thriving forests and urban spaces coexist sustainably.

1. Global Afforestation:
 - Planting billions of trees globally to restore habitats and biodiversity.
2. Pollution Reduction:
 - Implementing strategies for cleaner air and water through sustainable practices.
3. Clean Air for All:
 - Improving public health by reducing respiratory diseases with cleaner air.
4. Biodiversity Conservation:
 - Supporting ecological balance by creating green spaces and protecting species.
5. Climate Change Mitigation:
 - Combatting climate change by sequestering carbon through extensive tree planting.

Our mission is to unite a global community in environmental sustainability and conservation.

1. Global Community Building:
 - Creating an inclusive network of environmental advocates worldwide.
2. Awareness and Education:
 - Educating about trees, clean air, and sustainable living through workshops and campaigns.
3. Collaboration and Partnerships:
 - Partnering with governments, NGOs, and businesses for amplified impact.
4. Volunteer Engagement:
 - Providing opportunities for active participation in environmental initiatives.
5. Sustainable Practices:
 - Promoting waste reduction, water conservation, renewable energy, and eco-friendly habits.
6. Innovation and Research:
 - Advancing environmental science to enhance afforestation and pollution control strategies.

Commitment to Environmental Conservation

Bipul Hazarika, on behalf of Green & Green India and International, has taken a solemn pledge to "Save and restore our beloved mother earth." This commitment has been officially pledged and certificated by the Ministry of Environment, Forest, and Climate Change (Govt. of India), underscoring the organization's dedication to environmental conservation and sustainable practices. This pledge represents a promise to actively work towards protecting and rejuvenating our planet for future generations.

Next →

Commitment to Soil Health and Sustainable Agriculture

Bipul Hazarika, representing Green & Green India and International, has pledged to honor and promote the significance of soil health as part of the "World Soil Day" initiative. This pledge has been formally acknowledged and Certificated by the Department of Agriculture Cooperation & Farmer Welfare under the Ministry of Agriculture Cooperation & Farmer Welfare, Government of India. The commitment underscores the organization's dedication to sustainable agricultural practices and soil conservation, aiming to raise awareness about the vital role of healthy soils in ensuring food security and environmental well-being.

Next →

Commitment to Nature Conservation

Bipul Hazarika, on behalf of Green & Green India and International, has taken the pledge "Unite for Nature," which emphasizes the collective responsibility to protect and preserve natural ecosystems. This pledge has been officially recognized and certificated by the Ministry of Environment, Forest, and Climate Change (Govt. of India). This commitment signifies a unified effort towards environmental conservation, promoting sustainable practices, and fostering a deeper connection with nature for the well-being of the planet.

**We value our integrity and
commitment towards our nation**

Integrity Pledge

We believe that corruption has been one of the major obstacles to economic, political and social progress of our country.

We believe that all stakeholders such as Government, citizens and private sector need to work together to eradicate corruption.

We acknowledge our responsibility to lead by example and the need to put in place safeguards, integrity frameworks and code of ethics to ensure that we are not part of any corrupt practice and we tackle instances of corruption with utmost strictness.

We realize that as an Organization, we need to lead from the front in eradicating corruption and in maintaining highest standards of integrity, transparency and good governance in all aspects of our operations.

We, therefore, pledge that:

- We shall promote ethical business practices and foster a culture of honesty and integrity;
- We shall not offer or accept bribes;
- We commit to good corporate governance based on transparency, accountability and fairness;
- We shall adhere to relevant laws, rules and compliance mechanisms in the conduct of business;
- We shall adopt a code of ethics for all our employees;
- We shall sensitize our employees of laws, regulations, etc. relevant to their work for honest discharge of their duties;
- We shall provide grievance redressal and Whistle Blower mechanism for reporting grievances and fraudulent activities;
- We shall protect the rights and interests of stakeholders and the society at large.

Membership and Support

Green & Green India and International believes that environmental conservation should be accessible to everyone. To ensure that financial barriers do not prevent anyone from joining our cause, we do not charge any membership fees. Your passion, commitment, and willingness to contribute are all that is required to become a part of our community.

- **No Membership Fees: Join Green & Green India and International without any fees. Your passion and commitment are all that's needed.**
- **Free Lifetime Membership: Enjoy lifetime membership with no renewals. Stay connected and contribute to our cause indefinitely.**
- **Donations Welcome: Support our initiatives through donations of any size. Every contribution helps us achieve a greener, cleaner world.**
- **Sponsorships Accepted: Businesses and individuals can sponsor our projects, gaining recognition and contributing to global environmental sustainability.**

Community Engagement:

- Offering diverse volunteer opportunities and educational workshops.
- Running awareness campaigns on social media and through public events.
- Engaging youth through school programs and encouraging environmental stewardship.
- Conducting research on afforestation techniques and pollution mitigation.
- Exploring innovative technologies for sustainable environmental solutions.
- Assessing project impacts and collaborating with research institutions for knowledge sharing.

Tree Plantation Initiatives:

- Organizing tree planting events in urban, suburban, and rural areas.
- Collaborating with local communities and schools for sustainable planting.
- Emphasizing native species and biodiversity for resilient ecosystems.
- Monitoring and maintaining tree health post-planting.

Pollution Reduction Projects:

- Improving air quality through advocacy and cleaner technologies.
- Controlling water pollution from industrial and agricultural sources.
- Promoting sustainable practices and organizing community clean-up drives.

Green & Green India and International strives to make a lasting impact by promoting environmental sustainability through these initiatives.

Founder

Bipul Hazarika

Bipul Hazarika, a dedicated advocate for cultural preservation and environmental conservation, has been a driving force in his community for decades. Through his leadership and initiative, he has organized cultural festivals, led tree planting campaigns, and spearheaded numerous environmental and social initiatives. Bipul Hazarika's passion for his community and the environment has inspired positive change, leaving a lasting impact on those around him. As a visionary leader and compassionate individual, Bipul Hazarika continues to inspire others to join him in building a sustainable and vibrant future for all.

As the President of Green & Green India and International, he is a passionate environmentalist with a vision for a sustainable future. With years of experience in environmental advocacy and community mobilization, Bipul Hazarika has been the driving force behind our organization's initiatives. His leadership is characterized by a deep commitment to ecological balance, innovation in sustainability practices, and the empowerment of communities to take ownership of their environment. Under Bipul Hazarika's guidance, Green & Green India and International has grown from a small, local initiative to a global movement, inspiring countless individuals to join the fight against pollution and deforestation. His vision and dedication continue to shape the organization's strategies and ensure that we stay true to our mission of creating a greener, cleaner world.

United Nations Foundation

Green & Green India and International has subscribed to the United Nations Foundation, aligning with global efforts to address critical environmental, humanitarian challenges and to stay updated . This subscription reflects our commitment to supporting and participating in international initiatives that promote sustainable development, climate action, and social justice. Through this association, we aim to contribute to and benefit from a network of organizations dedicated to making a positive impact on the world.

Activity Profile

01

- **Local and Global Events:** Host tree planting events tailored to local environmental needs.
- **Community Participation:** Open to the public, fostering collective responsibility.
- **Educational Component:** Teach participants about tree care and environmental stewardship.
- **Tracking and Reporting:** Record tree data to assess impact and plan future activities.

02

- **Topics Covered:** Importance of trees, pollution reduction, renewable energy, and sustainable practices.
- **Target Audiences:** Schools, universities, community groups, businesses, and government agencies.
- **Expert Speakers:** Environmental experts share knowledge and insights.
- **Interactive Learning:** Engaging and hands-on activities for participants.

03

- **Organized Events:** Target beaches, rivers, parks, streets, and public spaces.
- **Volunteer Participation:** Engage community members, students, and corporate teams.
- **Waste Management Education:** Teach proper disposal and recycling.
- **Impact Reporting:** Document waste collected to advocate for better policies.

04

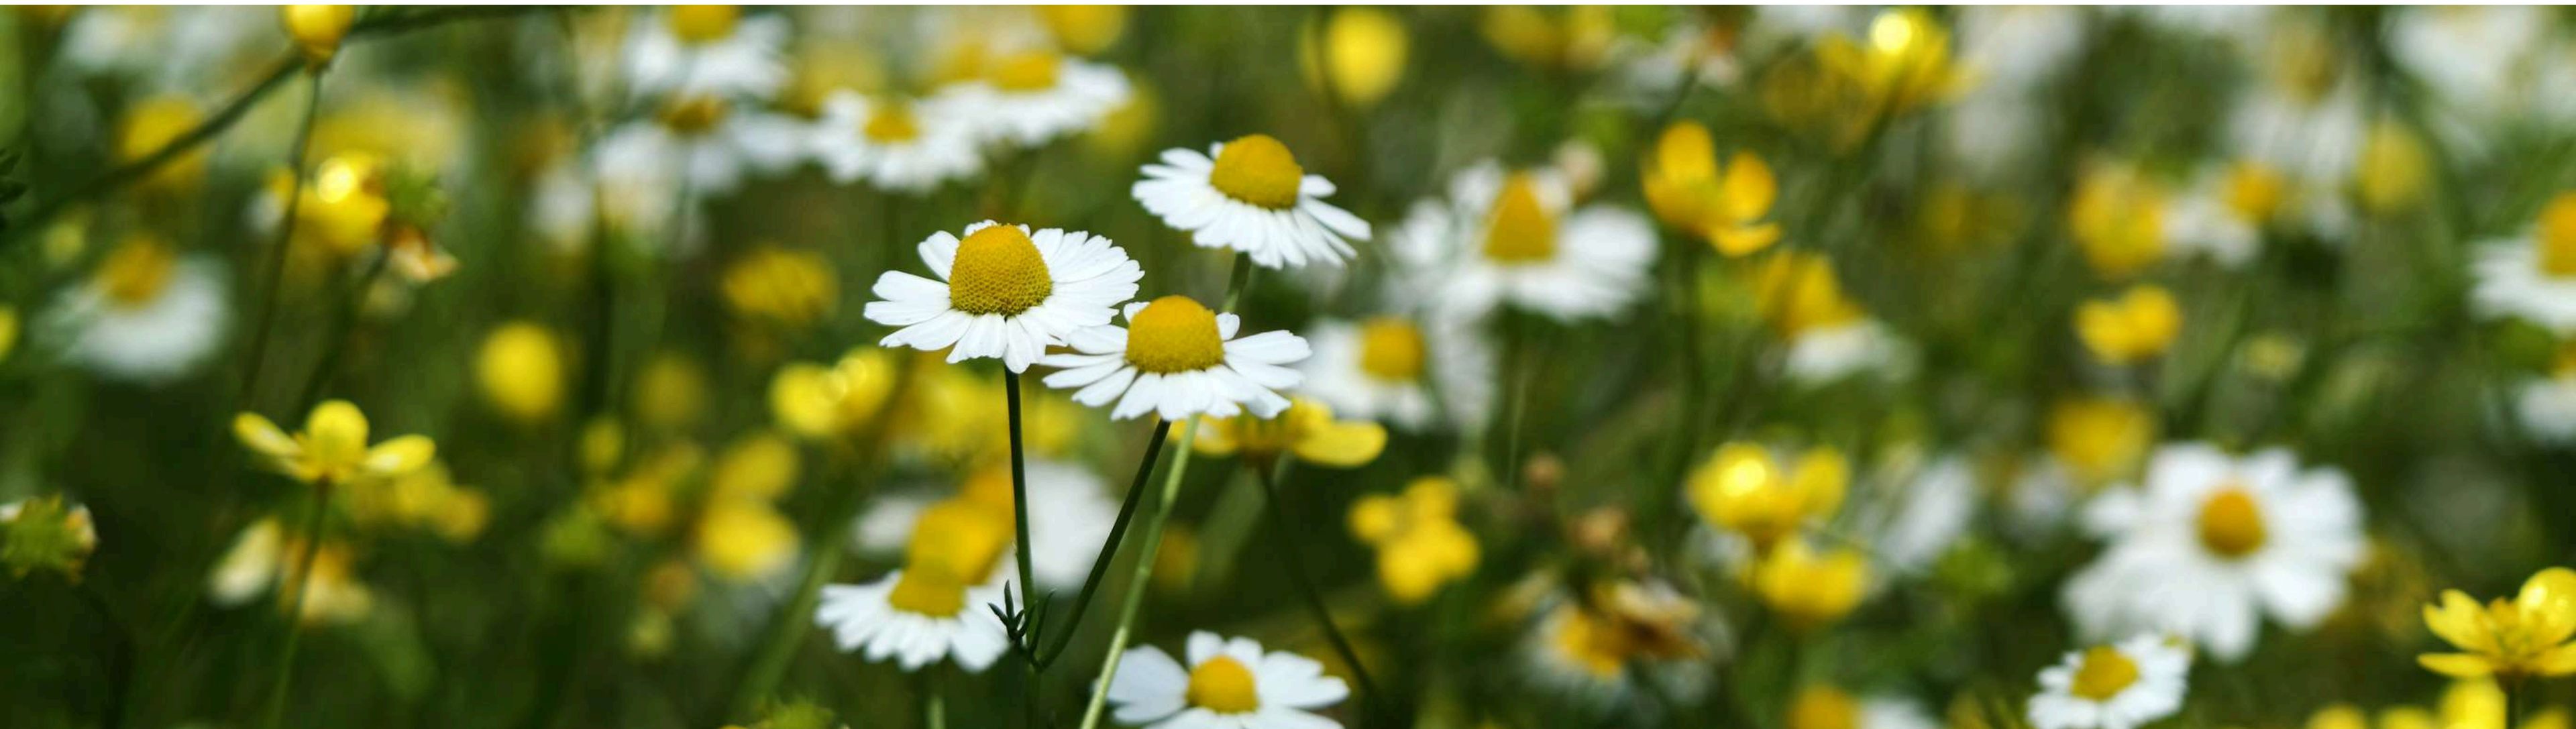

- **Awareness Campaigns:** Informative posts, videos, and interactive content on environmental issues.
- **Community Engagement:** Encourage participation in challenges, contests, and virtual events.
- **Success Stories:** Share updates and positive impact of initiatives.
- **Call to Action:** Motivate followers to join events, volunteer, donate, or adopt sustainable practices.

Fundraising and Sponsorship:

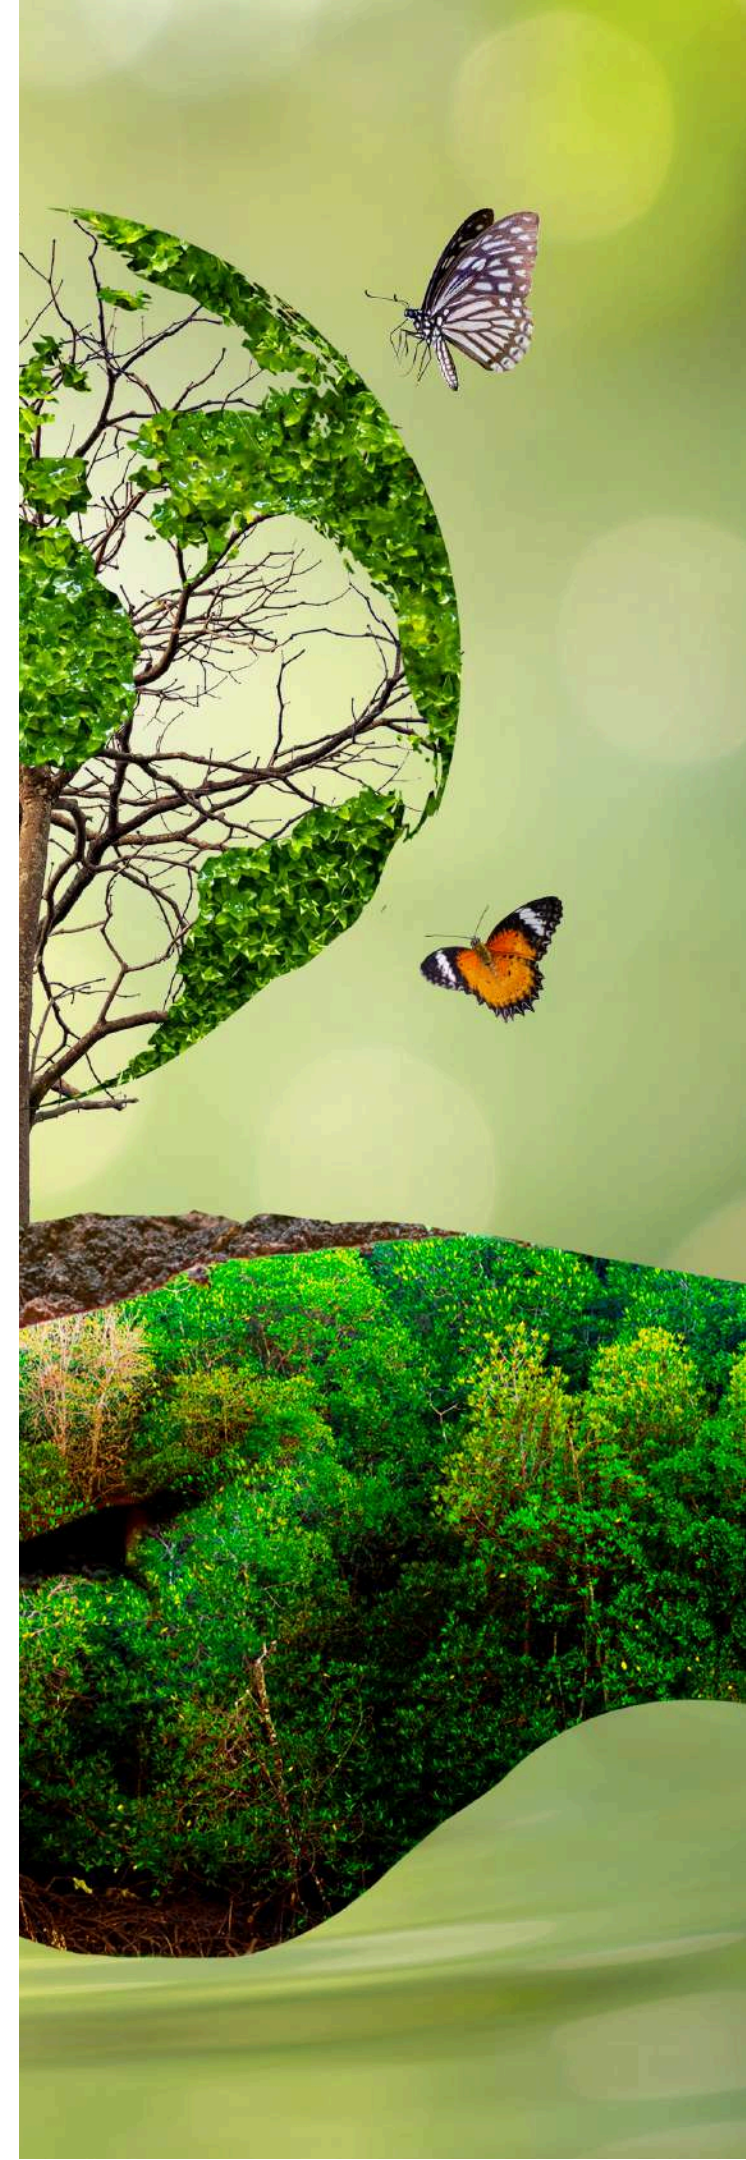

- ***Fundraising Events: Host charity runs, dinners, auctions, and online fundraisers.***
- ***Donor Engagement: Keep donors informed and engaged.***
- ***Corporate Sponsorships: Partner with businesses for visibility and support.***
- ***Grant Applications: Seek funding from foundations, government agencies, and international organizations.***

Green & Green India and International strives to make a lasting impact by planting trees, reducing pollution, educating communities, and securing funding for a greener, cleaner, and more sustainable world.

COMMITMENT

Green & Green India and International is dedicated to fostering a sustainable and eco-friendly future. Our commitment encompasses a broad range of initiatives aimed at environmental conservation, including afforestation, pollution reduction, and community education. We pledge to work tirelessly towards protecting natural habitats, promoting clean energy solutions, and advocating for policies that prioritize ecological balance and human well-being. Through collaborative efforts and innovative projects, we strive to make a lasting impact, ensuring a healthier planet for current and future generations. Our mission is guided by a deep respect for nature and a steadfast belief in the power of collective action to bring about meaningful change.

Future Plans

01

Expansion of Afforestation Efforts:

Launching new tree planting initiatives in urban, rural, and degraded areas to increase green cover and biodiversity.

03

Youth Empowerment Programs:

Scaling up youth engagement to empower young leaders in environmental conservation and sustainability.

05

International Collaborations:

Strengthening partnerships for global environmental conservation projects and knowledge sharing.

02

Enhanced Pollution Monitoring and Control:

Implementing advanced technologies for pollution monitoring and expanding projects for cleaner air and water.

04

Community Resilience Projects:

Initiating climate resilience projects, promoting sustainable livelihoods, and disaster preparedness.

06

Technology and Innovation Hub:

Establishing a hub for sustainable technology research and development, focusing on renewable energy and waste management solutions.

KEY HIGHLIGHTS

Green & Green India and International has achieved significant milestones in environmental conservation and community engagement. Key highlights include planting over 100,000 trees globally as part of our afforestation campaigns, successfully launching pollution reduction initiatives in major urban areas, and organizing numerous educational workshops and seminars to raise awareness about sustainable practices. Our international presence has expanded with active projects and partnerships across several countries, amplifying our impact. Additionally, we have engaged thousands of volunteers and supporters through community events, clean-up drives, and online campaigns, fostering a global network of environmental advocates. These achievements underscore our commitment to creating a greener, healthier world for all.

Long-Term Goals:

01

Planting Millions of Trees Globally:

Contributing to global afforestation goals and combating climate change through extensive tree planting initiatives.

03

Promoting Sustainable Development:

Advancing sustainable practices across sectors and promoting resource efficiency and circular economy principles.

05

Influencing Policy and Legislation:

Advocating for strong environmental policies at local, national, and international levels.

02

Achieving Clean Air and Water for All:

Advocating for policies ensuring clean air and water globally to improve public health and reduce pollution-related diseases.

04

Empowering Local Communities:

Supporting communities to become environmental stewards through sustainable livelihoods and natural resource management.

06

Educating Future Generations:

Inspiring environmental stewardship and activism among youth through education and awareness initiatives.
